

Quali-Pro 25

A protein and sugar complimentary feedstuff for ruminants with QLF "Timed-Release" Protein

Code: 137

ANALYTICAL CONSTITUENTS

	As Fed	Dry Matter
Crude Protein	25.0 %	49.1 %
NPN	20.1 %	
Crude Fibre	0.0 %	0.0 %
Ash	5.1 %	10.1 %
Sugar TSAS	26.9 %	52.8 %
Total Sugars	28.0 %	55.1 %
Phosphorous	0.1 %	0.2 %
Calcium	0.1 %	0.2 %
Magnesium	0.1 %	0.1 %
Sodium	0.3 %	0.7 %
Crude Oil	0.0 %	0.0 %
Dry Matter	50.9 %	

Litres/tonne 827

Urea and its derivatives:

Urea, Technically Pure {3d1} 67106 mg/kg

This product contains high levels of protein. DO NOT FEED TO SHEEP.

Phosphorus as derived from Phosphoric Acid

Phosphorus 0.05 %

COMPOSITION

Beet Molasses, Urea

CERTIFICATION DEATILS

A molassed feeding stuff manufactured under Trading Standards registration No GB708 C0007
UFAS registration no. 217 - Compound Feeds - Certificate End date 31/05/2029

Product Manufactured by QLF Production Ltd, Farley, Much Wenlock, Shropshire, TF13 6NX
Tel: 01952 727754 Fax: 01952 727755 E-mail: www.qlf.co.uk

INSTRUCTIONS FOR USE

This QLF protein product may be fed to ruminants over 12 weeks of age to increase sugar and ration palatability, whilst providing rumen available protein. This product is designed to optimise rumen function and aid in balancing the nutrient value of rations. It includes sugars and 'Timed Release' protein to aid rumen bacteria and the digestibility of forages and fibre in the ration.

QLF 'Timed Release' Protein releases ammonia to the rumen at a similar speed as RDP from rape or soya.

This product can be mixed with TMR/home mix rations at a rate up to 2 litres/head/day for larger ruminants. It can be top dressed onto feeds and forage or poured onto silage, hay or straw.

The product should be introduced gradually, to acclimatise the rumen.

QLF protein products with over 20% as fed protein should not be fed via ad lib lick feeders, to reduce the risk of overconsumption of urea. Consult your QLF representative or nutritionist for further guidance. QLF protein products with over 20% as fed protein should not be fed to sheep. QLF recommends the use of EWE ENERGY for sheep.

This product is excellent as a supplement for use year-round in feeding programmes.

Always ask your QLF representative or feed advisor for their recommendations in relation to your feed regime and performance requirements.

CAUTION:

DO NOT feed to ruminants under 12 weeks

DO NOT feed to non-ruminant animals such as horses (all equine) pigs, or poultry.

DO NOT feed to energy-starved animals.

Ensure animals have unlimited access to clean water and forage.

Best used within three months of delivery date on weighbridge ticket
