

PRODUCT DATA SHEET

TRAFFIC FILM REMOVER

Description:

GREEN-CLEAN is a mild alkaline formulated concentrate based on biodegradable detergents, chelating agents, and alkaline cleaning agents, designed to be diluted in water to produce traffic film removing formulations for application by high pressure spray washing. It is non-caustic, and is formulated to be environmentally friendly.

Specification:

	GREEN-CLEAN
Appearance at 25°C	Clear green liquid
pH 10% dilution in water	11.0 – 11.5
Cloud point on warming	Above 50°C

Application:

Wear gloves and eye protection when using.

Use high pressure water spray to remove loose dirt and soil

Spray GREEN-CLEAN onto vehicle using a spray with dilution in water set in the range of 1% to 5% depending on the amount of contamination on the vehicle. Use hot water for better results. Allow to soak for 30 seconds to 1 minute.

Spray off with high pressure water spray to completely rinse and remove cleaner from all surfaces.
